YOUR REF.:

OUR REF.: AGH.

1 - APR 1954

March 1954.

TO ALL CITROEN AGENTS.

Dear Sirs,

OUTER BALLRACE - FRONT HUB.

- 4 CYLINDER F.W.D. MODELS.

This ballrace, Part No. 425654 is now replaced by 441510. The new race is 2mm. wider, i.e. 19mm. wide instead of 17mm. This necessitates the distance piece between the inner and outer ballraces being shorter by 2mm. and it becomes 34mm. long instead of 36mm.

It is a simple operation to reduce accordingly, the existing distance piece, but, if necessary, replacement ones to the shorter length are available under Part No. 441511.

As it is anticipated that Agents will doubtless shorten the existing ones, replacement distance pieces will not be supplied unless specifically ordered.

We are pleased to announce that supply re-arrangements enable us to make a substantial price reduction and the new race retails at £1. 2. 0d. instead of £1. 15. 0d., your usual discount still applying.

Yours faithfully,
CITROEN CARS LIMITED.

A.G. HARDS,
Spares & Service Manager.
